#### OPTIONAL ANNUAL REPORT TEMPLATE

**Drinking-Water System Name:** 

**Drinking-Water System Owner:** 

**Drinking-Water System Category:** 

Period being reported:

#### 220000059

Palmerston Drinking Water System

Town of Minto

Large Municipal Residential

January 1, 2015 to December 31, 2015

### Complete if your Category is Large Municipal Residential or Small Municipal Residential

Does your Drinking-Water System serve more than 10,000 people? Yes [ ] No  $\lceil \sqrt{\rceil}$ 

Is your annual report available to the public at no charge on a web site on the Internet? Yes  $\lceil \sqrt{\ \rceil}$  No  $\lceil \ \rceil$ 

Location where Summary Report required under 0. Reg. 170/03 Schedule 22 will be available for inspection.

Town of Minto 5941 Hwy #89 R.R. #1 Harriston, ON NOG 1ZO

#### Complete for all other Categories.

Number of Designated Facilities served:

N/A

Did you provide a copy of your annual report to all Designated Facilities you serve? Yes [ ] No [ ]

Number of Interested Authorities you report

to: N/A

Did you provide a copy of your annual report to all Interested Authorities you report to for each Designated Facility?

Yes [ ] No [ ]

Note: For the following tables below, additional rows or columns may be added or an appendix may be attached to the report

Did you provide a copy of your annual report to all Drinking-Water System owners that are connected to you and to whom you provide all of its drinking water?

Yes [ ] No [√]

Indicate how you notified system users that your annual report is available, and is free of charge.

[√] Public access/notice via the web	Town of Minto Website
[ ] Public access/notice via Government Offi	ce
[√] Public access/notice via a newspaper	Advertisements in Local Newspapers
[ ] Public access/notice via Public Request	
[ ] Public access/notice via a Public Library	
[√] Public access/notice via other method	Tax Letter

#### Describe your Drinking-Water System

Palmerston is serviced by a waterworks that consists of: four drilled bedrock wells, two pumphouses, an elevated 2500 m³ steel storage tank and a distribution network of watermains, ranging in diameter from 100 mm to 250 mm. In the event of a prolonged power outage, a portable generator is available to either pumphouse to supply back-up power.

The bedrock wells are equipped with submersible pumps that discharge directly into the William Street pumphouse (Wells #1 and #2) or the Whites Road pumphouse (Well #3 and #4). In the pumphouse, the raw water supply is injected with 12% sodium hypochlorite for disinfection and the chemical PW1680, for iron sequestering. The treated water leaves the pumphouse and enters an underground contact pipe and is discharged into the distribution system after adequate contact time is achieved.

The wells are controlled (start/stop) automatically based on elevated storage tank liquid levels and pressures in the distribution system. Each pumphouse is equipped with alarms for chlorination system failure (and corresponding lockout of well pumps), low water level and intrusion. Each pumphouse has continuous monitoring analyzers for chlorine with lockouts and alarms.

SCADA provides continuous monitoring to this system.

#### List all water treatment chemicals used over this reporting period

- 12% Sodium Hypochlorite (disinfectant)
- PW1680 (sequestering agent)

Were any significant expenses incurred to?

- [√] Install required equipment
- $[\sqrt{\ }]$  Repair required equipment
- $[\sqrt{\ }]$  Replace required equipment

#### Please provide a brief description and a breakdown of monetary expenses incurred

To meet the requirements of O. Reg. 170/03, upgrades, installations and replacement of various system components have been completed. However, maintaining the system includes repair and replacement of individual components as required.

In 2015, \$23,400 was spent on Water Tower maintenance, \$56,650 on watermain on James Street and \$2,500 on Lowe Street and Walker Street.

Provide details on the notices submitted in accordance with subsection 18(1) of the Safe Drinking-Water Act or section 16-4 of Schedule 16 of O.Reg.170/03 and reported to Spills Action Centre

Incident Date	Parameter	Result	Unit of Measure	Corrective Action	Corrective Action Date

#### Palmerston Distribution System

Summary of Organic parameters sampled during this reporting period or the most recent sample results

Parameter	Sample Date	Result Value	Unit of Measure	ODWS Criteria
	20/02/15	13.00	30 (ug/L)	100
ТНМ	27/05/15	< 4.0		
I FIIVI	17/08/15	10.30		
	09/11/15	10.80		

List any Inorganic or Organic parameter(s) that exceeded half the standard prescribed in Schedule 2 of Ontario Drinking Water Quality Standards.

Parameter	Result Value	Unit of Measure	Date of Sample
N/A	N/A	N/A	N/A

(Only if DWS category is large municipal residential, small municipal residential, large municipal non residential, non municipal year round residential, large non municipal non residential)
