

TOWN OF MINTO

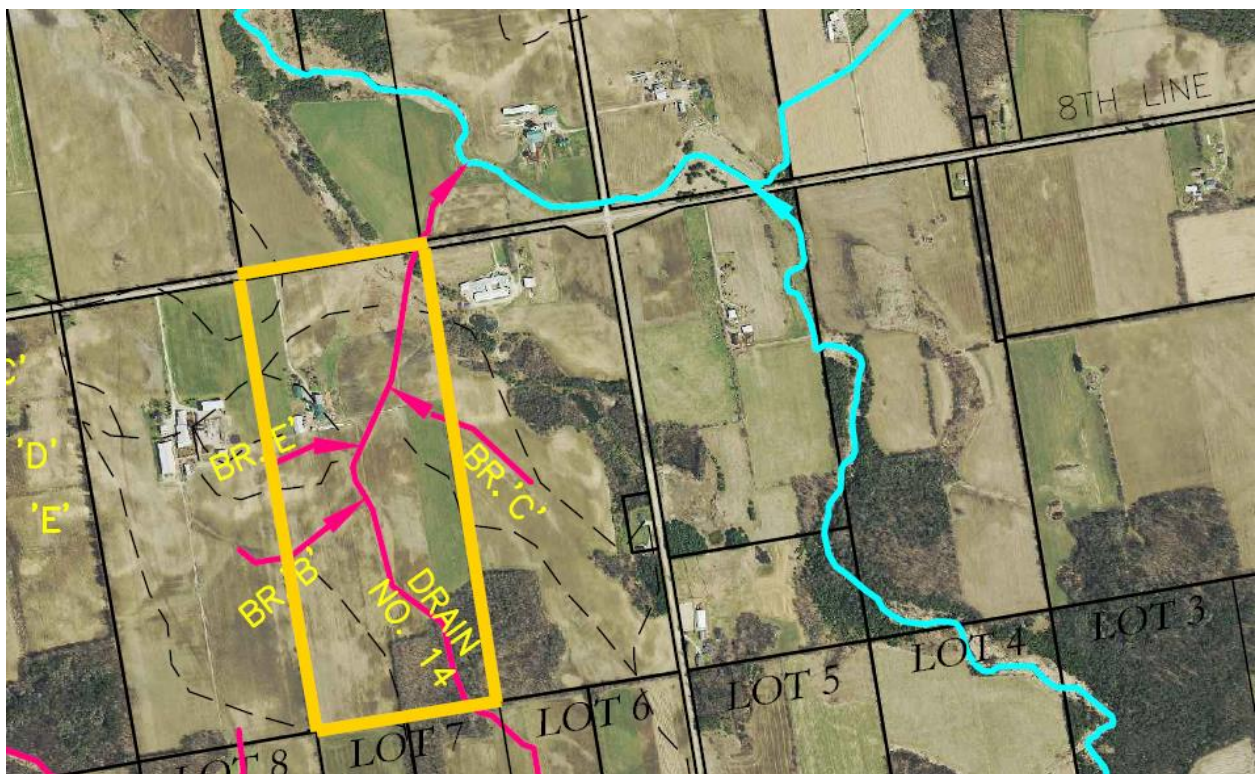

MEETING DATE: May 7th, 2024
REPORT TO: Mayor and Council
SERVICE AREA: Public Works
SUBJECT: PW 2024-013 – Municipal Drain 14 Improvement Request

RECOMMENDATIONS:

THAT Council of the Town of Minto receives report PW 2024-013 regarding Municipal Drain 14 Improvement Request and appoint Streamline Engineering INC to represent the Town’s interest in this regard.

BACKGROUND:

Staff have received a Section 78 for an improvement to the existing Municipal Drain 14 under the Drainage Act from one local landowner due to a shallow aged system with multiple failures this past season. The area requesting improvements is Concession 8 Lot 7 shown outlined in yellow below.

COMMENTS:

This top end of this drain has undergone improvements in 1984, and in 1991, but the bottom end has never been upgraded. Given the current condition of drain on the North end of the subject property, an upgrade to the bottom end of the drain is essential for the functionality of the drainage system, to the benefit of all the upstream landowners.

FINANCIAL CONSIDERATION:

All costs associated with these projects will be assessed to the landowners, utilities and road authorities determined by the Engineering Report for each individual drain.

STRATEGIC PLAN:

Goal 3: Strong Vibrant Economy

Progressively support our local businesses while leveraging Minto's competitive advantages to attract new economic investment.

PREPARED BY: Ryan Binkle, Drainage Superintendent
